- improve the conditions to allow innovators to experiment with new ideas through **regulatory sandboxes**
- help create "**regional innovation valleys**" that will strengthen and better connect innovation players through Europe, including in regions lagging behind
- attract and retain talent in Europe, for example by training **1 million deep tech talents**, increasing support for women innovators and innovating with start-up employees' stock options
- improve the policy framework through clearer terminology, indicators and data sets, as well as **policy support to Member States**

Work Programme 2023-24

- Merger of CONNECT & SCALE UP destinations
- Less calls
- Novelties:
