Writing a successful proposal

Leiden University Medical Center

1. **Start on time!**
   - 1 year ahead
2. **Comprehensive but keep it simple**
   - Language
   - Structure: 1) Objectives and workplan, 2) Impact, 3) Implementation
   - Diagrams
3. **Resources**
   - Work breakdown > objectives > activities > cost calculation
4. **Special attention**
   - Added value application > societal and economic impact
   - Multi-disciplinarity, end-user involvement, civil-society
   - Sustainability, ethical & regulatory compliance

The review process

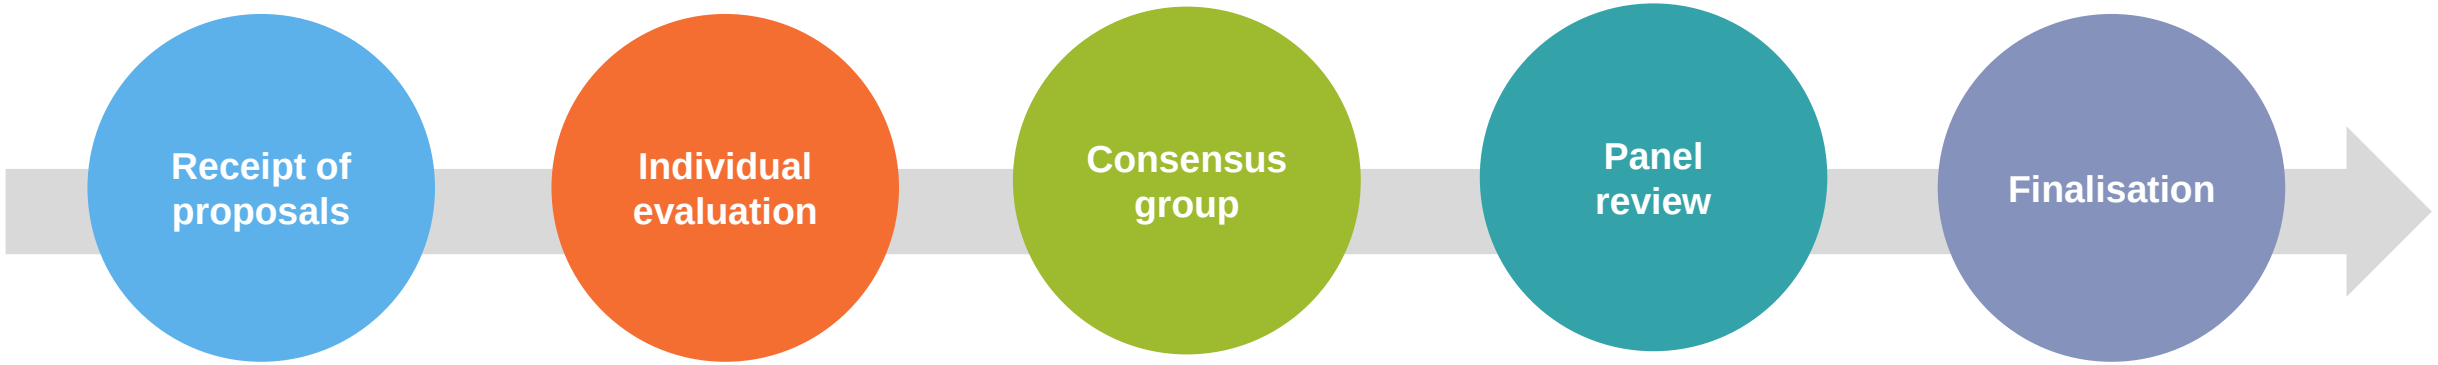
Standard evaluation process



Admissibility/eligibility check

Allocation of proposals to evaluators

Experts assess proposals **individually**.

Minimum of three experts per proposal (but often more than three).

All individual experts discuss together to agree on a **common position**, including comments and scores for each proposal.

The panel of experts reach an **agreement** on the scores and comments for all proposals within a call, checking **consistency across the evaluations**.

if necessary, resolve cases where evaluators were unable to agree.

Rank the proposals with the same score

The Agency reviews the results of the experts' evaluation and puts together the **final ranking list**.
